Dear Parents and Guardians,

The faculty and staff are proud to partner with you in the education of your child. You are very important to the success of the educational experience. We are committed to the belief that all children can learn and acknowledge that all of us – teachers, administrator, and parents – working together can make a positive difference in student achievement.

The school will provide an optimum learning experience and environment in which students will experience success and achieve excellence in learning. To support the learning experience, parents and guardians are encourage to:

- ✓ Make sure your child attends school regularly—being present is the first step to learning.
- ✓ Instead of asking, “*What did you learn today?*”, try “*Can you teach me something you learned today?*” to spark a real conversation.
- ✓ Check your child’s **K–4 orange folder** every day. Take out papers that stay home, and sign and return the ones that go back to school.
- ✓ Set aside a quiet, distraction-free time each evening for homework or review skills.
- ✓ Make sure homework is completed and packed up to return to school the next day.
- ✓ Talk with your child about making good choices and staying focused during learning time.
- ✓ Stay in regular contact with your child’s teachers—working together makes a big difference.
- ✓ Join our WRES PTO, Facebook, and Remind groups to get school updates and reminders.
- ✓ Let the WRES office know right away if your phone number or address changes.
- ✓ Reach out to our **Parent Center** for fun learning activities you can do together at home.

In order to be effective in meeting the needs of its student population, a school system must have principles, policies, and regulations to guide its activities. These regulations and policies are designed to be a guide to teachers, students, and parents. The regulations and policies are a result of many years of study, planning, and use on the part of students, teachers, administrators, and board members. It is hoped that they will be an asset to the students and staff as they work together and plan for the educational opportunities of students.

The purpose of the Student Handbook is to give you and your child an understanding of the general rules and guidelines established by the administration which support and promote the Walnut Ridge Elementary School Mission and Vision statements. Please read the Student Handbook carefully and discuss the information with your child. Feel free to contact school staff when questions or concerns arise.

Access to the Walnut Ridge Student Handbook is available to all students and their parents through the Lawrence County School District webpage at www.bobcats.k12.ar.us .

All students, parents, and guardians must sign the Parent Acknowledgement form stating you have access to the Walnut Ridge Elementary School Student handbook and are aware of the procedures and policies set forth by the Lawrence County school district. The Acknowledgment and Permission form is due within one week of enrollment.

Sincerely,

INFORMATION FOR CAR DRIVERS IN DROP-OFF / PICK-UP LINES

- In Arkansas, it is illegal to use a handheld wireless telephone while driving through a school zone during school hours when children are present. This includes both talking and texting.
- For the safety of our students, please do not pass other cars in the car line and watch for students.
- Please keep drop-off and pick-up lanes clear until drop-off and pick-up begins.
- Morning drop-off begins at 7:40 am.

- Once the school day has started, please park and walk your child into the WRES or WRMS Office to sign them in.
- Walkers will be released after car riders have been picked up.
- For safety reasons, a Pick-Up ID Card is required to pick up a K-4 student without showing your photo ID in the WRES Office. Parents will be issued two Pick-Up ID Cards to use or share with an authorized adult.
- Drivers are asked to stay in the car and wait for a car duty staff member to open the car door.
- The Transportation Director asks that parents and students do not walk between the busses.

PARKING

- Please do not park or leave a car unintended in the bus lanes.
- Avoid blocking any handicap ramp or designated handicap parking area.
- Parking lots are available across the street from the WRES Main Office areas and by the Community Center.

PARENT COMMUNICATION

The Parent communication policy requires teachers to communicate with the parent(s) or guardian(s) of students to discuss the student's progress. This will be done through conferences, progress reports, and parent teacher conferences. Extra conferences will be provided for students not performing at the level expected for their grade on an individual basis or as needed. Additional information and reminders are available through our schoolwide Remind messaging system. Each teacher has a classroom Remind group. Each building has a separate Remind group, too. Parents need to enroll in each group to stay informed. Parents can receive messages through the Remind App or through text messages. Parents receiving Remind message through texts will need to re-enroll if their phone number changes.

VISITORS

The administration, faculty and staff of the Lawrence County School District welcome visitors to our campus. We especially encourage parents of our students to visit with us about a student's progress and to attend the programs and activities that are presented from time to time by the students and school personnel. Certain rules for visitors must be observed. All visitors should report to the principal's office and secure approval and a pass for visiting on campus. Care should be made to avoid disturbing a classroom. Student visitors to classrooms are not allowed unless prearranged with the principal. We encourage participation by all individuals. If a person has a disability, advance notification of any special needs will help us better serve the visitor. If assistance is needed, contact either the Elementary Principal's Office or the Lawrence County School District Superintendent's office at (870)886-6634.

STUDENT VISITORS

The Walnut Ridge Elementary students are not allowed to bring visitor(s) to school without prior permission from the Principal. This practice can easily result in disruptions to the normal educational process. Any visitor coming to the school must report to the principal's office for permission to access the classrooms, cafeteria, library, etc. Current 5-12 students need permission to be in K-4 classrooms when students are present.

SCHOOL INSURANCE

The Lawrence County School District maintains a group policy. This insurance covers all members of the student body during the school day and all school activities. It is a secondary coverage and may not provide coverage in certain instances. Please contact the school and insurance company about coverage.

LOST AND FOUND

Lost articles should be reported to the office immediately. Found articles should be brought to the office and placed in the lost and found. Students should come to the office to check for lost articles. Labeling items will help in locating lost items. Unclaimed articles will be donated at the end of the school year.

WRES is not responsible for personal articles brought from home that are lost, stolen, damaged, bought, sold, or traded at school.

EMERGENCY DRILLS AND PROCEDURES

Act 258 of the State Laws of Arkansas requires that each school has an efficient operating fire program. In accordance with this regulation, Walnut Ridge Elementary School will conduct Fire, Tornado, Earthquake and Other safety drills under the direction of the building principal and/or counselor in compliance with the state requirements..

Instructions are posted in each room and directions discussed with the students for emergency evacuations. In case of a terrorist attack, students will follow the response plan. School will be dismissed and students will be taken home.

School personnel have been trained to care for students should a disaster occur. Parents are urged to use discretion in coming to school or calling so that school personnel can properly care for students without loss of time. School personnel have also been trained in crisis intervention techniques and appropriate measures will be taken should a crisis occur.

ACTIVE SHOOTER DRILL

The district shall annually conduct an active shooter drill. A school safety assessment may be conducted for all district schools in collaboration, when possible, with local law enforcement and emergency management personnel. Students will be included in the drills to the extent that is developmentally appropriate to the age of both the student and grade configuration of the school.

TEXTBOOKS

The Lawrence County School District furnishes textbooks to all students and provides access to library books and other media materials. Students should exercise special care with the books so they will be returned in good condition. If loss, damage, or destruction of books or other school issued materials should occur, parents or guardians will be charged for replacement cost or fined for damages. The books must be returned at the end of the school year or at the time of withdrawal from school or at other times announced.

LIBRARY

Fines are not charged for overdue materials; however, overdue materials must be checked in before additional materials may be checked out. All materials must be checked in before the closing of school or withdrawal from the school. Book replacement fees will be charged for lost library books.

BICYCLES

Bicycles ridden to school must be parked in designated places. If a problem arises due to use of a bicycle, the student will not be allowed to ride his/her bike to school.

SCHOOL PARTIES (K-4)

1. Walnut Ridge Elementary School will designate 3 parties per year: Christmas, Valentine's Day and end of the school year.

2. Student Birthdays
 - a. Treats for birthday celebrations are limited to the Special Treat Days scheduled each month throughout the school year.
 - b. Birthday party invitations are not to be passed out at school.
 - c. Students are not to ride the bus for birthday parties.

EXTRA-CURRICULAR ACTIVITY

The Lawrence County Elementary Schools, in an attempt to decrease interruptions in instructional time, shall implement measures to limit class-time scheduling of extra-curricular activities.

Walnut Ridge Elementary School must sometimes schedule activities during the school day. Otherwise, student participation would be very limited. Steps to decrease loss of instructional time shall include:

1. Advance notice to teachers of any special activities that might involve instructional time.
2. Students will be held accountable for missed work when participating in special activities.
3. Students who have excessive absences and are behind in academics may be excluded from extra-curricular activities.

FIELD TRIPS

It is a privilege for a student to be able to attend Field Trips. School behavior reflects greatly on the reputation of the school. All school rules carry the same consequences as they would if they were to occur at school.

In the case of serious breach of school rules at a school-sponsored activity away from school, it may be necessary to send a student home. In this situation, parents will be contacted and will be expected to pick up the student from the activity or to provide transportation for the student home at their own expenses. Consequences for violation of the rules, including suspension and/or expulsion, will be considered by the principal upon return.

Any student whom the faculty or administrator feels will prohibit the safety of the trip will not be allowed to attend.

* Decision to be made by Principal and Teacher(s).

ATTENDING SPORTING EVENTS

Students in grades K – 6 must be accompanied by a parent or guardian to sporting events.

Your purpose for attending sporting events is to support and cheer for your team. This is accomplished by sitting in the bleachers and not loitering in the lobby, concession area, bathrooms, or on the court/field.

Students are to comply with all directions and instructions from school personnel. Students misbehaving will be asked to return to the bleachers to sit with parent or guardian.

For your safety,

1. Do not go under the bleachers.
2. Stay out of dressing rooms and coach offices.
3. Stay off equipment.
4. Do not sit on the rails.

TOBACCO FREE CAMPUS

Smoking, vaping, and any other form of tobacco are prohibited on school property. Parents and visitors are not allowed to use tobacco products on school property for any reason.

GUIDANCE DEPARTMENT

The guidance office is open to all students in grades K-6. It is a place where students may express their feelings and opinions freely, knowing that all information will be regarded as confidential. The counselor is prepared to help students with educational and vocational planning and social and personal adjustment.

CHILD ABUSE

As mandated reporters, the faculty and staff of the Lawrence County School District will report all cases of suspected child abuse (sexual abuse, physical abuse, neglect). The following procedural steps will be used:

1. Child Abuse Hotline will be contacted
2. Teacher-Counselor consultation
3. Notify Principal

After consultation, the proper social services agency will be notified if deemed appropriate. Arkansas Statutes 42-807 through 42-818 provide that personnel from Arkansas Social Services interview the child in cases of suspected child abuse, sexual abuse, child neglect, or exploitation.

Agency personnel are not required by law to obtain parental consent prior to conducting the interview with the child in keeping with Arkansas Law. Lawrence County Elementary Schools will allow personnel from Arkansas Social Services to conduct interviews with students when appropriate.

LEGAL NAMES

Students must use their legal birth names for all official school documents. Name changes will only be accepted upon receipt of a court order.

LEGAL CUSTODY

Act 660 of 1993 indicates that in order to avoid continuing child custody controversies from involving public school personnel and to avoid disruptions to the educational atmosphere in the school, the transfer of a child between the child's custodial parent and non-custodial parent...when both parents are present...is prohibited from taking place on the real property of an elementary school on normal school days during normal hours of school operation. The provisions of this policy shall not prohibit one parent (custodial or non-custodial) from transporting the child to school and the other parent (custodial or non-custodial) from picking the child up from school at prearranged times on prearranged days if prior approval had been made with the school's principal.

When the non-custodial parent is to be denied access to the student, the custodial parent must provide the principal with:

1. A copy of the court order giving the custodial right to the parent, and;
2. A copy of the court order denying the non-custodial parent access to the student, and;
3. A written statement to the principal that such denial is approved by the custodial parent.

POLICY FOR ACCEPTANCE AND REJECTION OF SCHOOL CHOICE NON-RESIDENT STUDENTS

If a non-resident student seeks to attend school in Lawrence County School District, the student's parent shall apply to the Lawrence County School District Office on the Nonresident Student Transfer Form, postmarked no later than May 1 of the year in which the student seeks to begin the fall semester. A parent seeking a student transfer must also submit the form to student's resident school district by June 1. Lawrence County School District will respond in writing no later than August 1 to notify the student's parent(s) or guardian(s) of whether the application has been accepted or denied.

A student's application may not be denied based on the student applicant's athletic or extracurricular abilities, academic achievement, English proficiency level, gender, race, ethnicity, religion, national origin, or disability. An application may not be denied on the basis of previous disciplinary proceedings, except that an expulsion from another district may be considered.

The Lawrence County School District is not required to accept any application that would cause it to add teachers, staff, or classrooms, or in any way exceed the requirements and standards established by law.

A student may transfer by choice to one nonresident school per year. A student who has transferred to our School District may return to his or her resident district at any time, but may only return to our School District by re-application and re-acceptance through the Public School Choice Act process. No student is allowed more than one school choice transfer per school year.

A present or future sibling of a student who continues enrollment in the school district under the Public School Choice Act may enroll in or continue enrollment in the Lawrence County School District until the sibling of the transfer student completes his or her secondary education, if the Lawrence County School District has the capacity to accept the sibling without adding teachers, staff, or classrooms or exceeding the regulations and standards established by law. Sibling admissions are exempt from the three percent (3%) cap limitation contained in the Public School Choice Act.

If a student is denied transfer to our School District due to limits on the number of student transfers imposed by the resident district, the student's resident district must give that student priority for a transfer the following school year. Reference: Act 1227 of 2013 (to be codified).

ENROLLMENT OF HOME-SCHOOLED OR PRIVATE SCHOOL STUDENTS

Any Home-School or Private School student wishing to attend Walnut Ridge High School to enroll in certain academic classes may do so under the following circumstances:

- Parents agree to provide transportation for the students at any time in which busing is not provided by the district.

STUDENT TRANSFERS

The Lawrence County School District shall review and accept or reject requests for transfers, both into and out of the district, on a case by case basis.

The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from an accredited school to the Walnut Ridge Elementary School will be placed in the grade he or she is in or in the grade following the one he or she has just satisfactorily completed.

Any student transferring from home school or a non-accredited school shall be tested by staff using placement exams to determine the student's proper grade placement in the Walnut Ridge Elementary School. The evaluation may consist of the following criteria:

1. Age of student
2. Student's background and training
3. Student's performance in non-accredited school/Home School
4. Student testing (appropriate reading and math tests)
5. Parent recommendation

The final decision on placement will be decided by the building principal, who will consider recommendations of the counselor/teacher.

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another district to enroll as a student until the time of the person's expulsion has expired.

The responsibility for transportation of any non-resident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

STUDENT LEAVING DISTRICT

When a student plans to withdraw from school, the principal should be notified in advance so that copies of the student's records can be prepared to send to the receiving school. On the last day that the student will be in attendance, he/she should make sure that lunch charges and breakfast charges are paid. Textbooks and library books must be returned. Any student transferring out of the district shall pay all outstanding fines to the district before consideration of transfer.

STUDENT SCHOOL RECORDS AND EDUCATIONAL RECORDS

The Family Education Rights and Privacy Act of 1974 states in part that "All academic and personal records pertaining to individual students are confidential and can only be inspected by students, parents, and school officials." Parents of students have the right to view their child's records and challenge any record that may be misleading, inaccurate, or otherwise inappropriate. Walnut Ridge School will not release personally identifiable data from a student's records without the written consent from the parents of the student or from the student if he or she has reached the age of 18, except:

1. Other school officials within the same school may request and receive a student's record.
2. Officials of other schools or school systems in which the student has enrolled may request and receive a student's record.
3. Students, parents, or guardians who wish to view their student's files or correct records they believe may be inaccurate, misleading, or inappropriate should contact the school principal.

ATTENDANCE POLICY

The Arkansas Department of Education, Division of Elementary and Secondary Education defines chronic absenteeism as a student missing 10% or more of the school year for any reason—this includes excused absences, unexcused absences, and suspensions. According to Arkansas Code §§ 6-18-201 and 9-27-303, students are required to attend school regularly, and schools are mandated to notify the Juvenile Court when certain attendance thresholds are reached. At that point, the Court may initiate a FINS (Family in Need of Services) case to address truancy.

In accordance with Act 104 of 1983 and Act 1322 of 2013 Legislative Special Session, the Lawrence County School Board has approved the following concerning school attendance.

1. Three absences per semester may be excused with a note from the student's parent or guardian indicating the parent or guardian was aware of the student's absence. The note must be signed and include a phone number so that the parent or guardian can be contacted for verification. Subsequent absences will be unexcused unless one of the following reasons is properly documented as indicated:
 - Personal illness or medical appointments: doctor's note
 - Death or serious illness of a family member: parent or guardian phone call to principal
 - Court appearance: note from court official
2. The parent(s) will be contacted by letter when a student has been absent 5 days and again after a total of 9 days.
3. Students shall not be absent more than ten days (excused and unexcused combined) in a semester. Parents will be allowed to petition the school or district administration for additional absences. The petition must be made before the student accumulates the maximum number of 10 absences allowed under the policy. When a student has been absent for a total of 10 days, the principal will contact the parent to determine whether a referral should be made to the legal authorities.
4. The student, upon return to class, should initiate make-up work. One day will be allowed for each day absent

5. A student arriving at school after an absence during part of the school day must be checked in through the office. Even when a parent has checked out a student, a note will still be needed upon the student's return to school to keep a record of student attendance.
6. Students will only be permitted to leave with someone authorized by the custodial parent. In a case where students have a custodial and a non-custodial parent, the student will not be permitted to leave with the non-custodial parent without the express permission of the custodial parent.

Act 1223 of 2011 does not prohibit students from missing school for medical or dental treatment. If a student's treatment will require excessive absences, the student may petition for additional absences or may request a 504 plan. Exceptions will be made as necessary to satisfy Individualized Education Program (IEP) or 504 plans.

TARDY & ABSENCE

Policies for Grades K – 4

School starts at 8 am. After 8 am, a parent/guardian must park and walk the student into the building to be checked in by the office personnel. Any student who arriving between 8 am – 8:30 am will be considered tardy.

If a student is frequently tardy, a conference with the parent and student will be scheduled to create a plan that supports consistent, on-time attendance. Unexcused tardies (10 or more) can result in a FINS petition.

Students missing 30 minutes (or more) from the morning will be considered absent for ½ day (am).
Students missing 30 minutes (or more) from the afternoon will be considered absent for ½ day (pm)

Students may not be checked out after 2:30 pm. Each day at 2:30 pm, the front doors to the Elementary school will be locked so that teachers are able to get the students organized for dismissal. Parents needing to pick up their students must stay in the car rider line or check them out before 2:30 which will result in ½ day absence.

Policies for Grades 5 – 6

School starts at 8 am. Students arriving after the tardy bell for a class will be considered tardy for that class.

- The first and second tardy will receive a warning.
- Third and fourth tardy will receive detention.
- Each tardy thereafter will result in 1 day of ISS.

Students who miss 15 minutes (or more) from a class will be considered absent from that class.

LEAVING CAMPUS

No student will be allowed to leave the school grounds without permission from the office. Leaving the campus without permission will be considered truancy. Permission will only be given to those students whose parent/guardian comes to school and signs out the student. The only exception to this procedure would be if the principal determined the student's need to leave to be an emergency situation.

As a safety precaution, students are not to leave school at any time with a person not registered on the student's information card. A student may be permitted to leave with a non-registered person only after the parent is notified and permission has been granted. This regulation is in force from the time the student arrives at school until he/she officially leaves the school. Students leaving the school without permission are considered truant and the proper authorities will be notified.

ACADEMIC PERFORMANCE

Act 1070 OF 1991 provides for a uniform grading scale for all public schools in the state of Arkansas.

Student progress will be reported to parents on a regular basis. Grades shall reflect only the extent to which a student has achieved the expressed educational objectives for the course or content. The evaluation of each student's performance on a regular basis serves to give the parent/guardian, student, and school necessary information to help affect academic improvement.

PROGRESS REPORTS FOR GRADES K – 4

Standards-Based report cards reflect the learning goals of the Standards and Curriculum Frameworks as required by the state of Arkansas. Students should master these essential goals by the end of each grade level. Performance goal scores are broken down into four nine-week periods and then listed by skill. If a student has not met mastery of a skill it will be reassessed during the following nine-week period.

Each performance goal score will be assessed on a proficiency rubric and communicated through a Standards Based report card each nine weeks. Empty boxes indicate skills not assessed that nine-weeks.

Score – Achievement Level	Comments
3 – Proficient (on grade level)	O – On track for mastery
2 – Basic Understanding	N – Foundational skills not yet mastered
1 – Limited Understanding	T – Teacher guidance necessary
NY – Not Yet (rarely or not observed)	I – Intervention provided by interventionist (other than classroom teacher)

If student retention is being considered at any time, that information will be communicated to the students' parent/guardian and regular progress reports will be made regarding possible retention.

PROGRESS REPORTS FOR GRADES 5 and 6

Report cards reflect the learning goals of the Standards and Curriculum Frameworks as required by the state of Arkansas. Each letter grade shall be given a numeric value for the purpose of determining grade averages. Student learning will be assessed on a four-point scale and communicated each nine weeks.

Letter Grade	Percentage	Four-Point Scale
A	100 – 90	4 points
B	89 – 80	3 points
C	79 – 70	2 points
D	69 – 60	1 point
F	59 and below	0 point

HOMEWORK POLICY

Homework is a valuable aid in helping students make the most of their experience in school. Homework is useful in reinforcing what has been learned in class, prepares students for upcoming lessons, extends and generalizes concepts, teaches responsibility, and helps students develop positive study habits. Students will be given one day for every day they are absent to complete work.

Primary Grades (K-2)

There will be occasional homework assignments in these grades. When work is sent home, it will practice a skill that has been taught in class. Enrichment activities may also be assigned periodically.

Grades 3 – 6

Homework may be given throughout the week if necessary. Enrichment activities may also be assigned periodically. Students will be given periods of time at school to work on their daily work. If this is not finished, it will become homework.

We feel that parents are the key to making homework a positive experience for their children. Therefore, we ask that parents make homework a top priority, provide necessary supplies and a quiet homework environment, set a daily homework time, provide praise and support, not let children avoid homework, and contact the teacher if you notice a problem.

MID-TERM PROGRESS REPORTS

The Walnut Ridge Elementary School prepares grade reports for each nine-weeks grading period. Mid-Term reports are sent home midway through the grading period. The students are to take these mid-term progress reports home for their parents to review. It is hoped that this mid-nine-weeks report will inform the parent of their child's progress.

PARENT/TEACHER CONFERENCES

Parent/Teacher Conferences are scheduled twice a year, during the first and third nine-weeks grading periods. Report cards will be given to those parents who attend the conference. Students whose parents do not pick up their report cards will receive their report cards the next school day following the Parent/Teacher Conferences. Elementary School Teachers shall meet with parents or guardians of each student at least once per semester through a school conference, telephone conference, or a home visit.

ACADEMIC IMPROVEMENT PLANS

Any student who exhibits a substantial deficiency in Reading based upon statewide assessments shall be given an Individual Reading Plan (IRP) based on the science of reading. Any student who exhibits a substantial deficiency in Mathematics based upon statewide assessments may shall be given an Mathematics Improvement Plan (MIP) .

PROMOTION POLICY

A student is promoted to the next grade if his work indicates that he has progressed satisfactorily at his grade level. If, in the opinion of a designated committee (teacher(s) and principal), reinforcement is necessary to master certain basic skills, the student will continue at that grade level for another year. There are several factors considered in retention: grades, attendance, emotional, social development, and grade level mastery.

According to Act 390 (3)(A), any parent or student who does not want to be identified as an honor student or listed on the Honor Roll shall submit a written request to the principal requesting not to be identified.

CITIZENSHIP

Citizenship with the Lawrence County School District is interpreted to include the usual concept of behavior plus a wholesome and cheerful attitude toward work, teachers and other students. The following list of characteristics and traits of a good citizen is used by the faculty and administration in determining a citizenship grade.

- Practices respect to Self, Students, and Staff
- Accepts Responsibility
- Honest
- Respectful
- Works with Others
- Maintains Safety

Since the grading is rather close, a grade "B" on citizenship means that the student has been a good average citizen. A grade of "A" on citizenship means that there has been evidence of leadership and there has been something out of the ordinary to commend the citizenship of the student. If the student has a grade of "C" or lower in citizenship, there has been something about his/her behavior, his/her attitude and/or his/her participation that is not commendable. He/she should try to improve at once.

Students have the rights of citizenship as delineated in the United States Constitution and its amendments, and these rights may not be abridged, obstructed, or in any way altered, except in accordance with due process of law.

Administrators and teachers also have rights and duties. The teacher is required by law to maintain a suitable environment for learning, and administrators have the responsibility for maintaining and facilitating the educational program.

The following rules, regulations and procedures are designed to protect all members of the educational community in the exercise of their rights and duties.

SPECIAL EDUCATION

For a student with disabilities, the Individualized Education Program (IEP) serves as the students' "graduation plan." Beginning not later than age 14, or earlier if determined by a student's IEP Team, transition planning must be initiated to prepare a student for exit from a secondary education program to post-secondary life. This includes planning for the student's exit from school due to graduation. For a student with disabilities, fulfillment of the requirements set forth in the student's IEP constitutes the basis for graduation from high school.

EARLY GRADUATION

In order for a student to graduate early, he/she must meet the following requirements:

- Have a GPA of 3.0 or higher
- Submit an intent for early graduation letter to the principal by the end of the sophomore year signed by both the parent and student
- Have completed junior English or its equivalent and have earned the necessary 16 credits prior to the start of the junior year
- Forfeit the right to be considered Valedictorian/Salutatorian; may still be granted honor graduate status

Success-Ready Pathway Guide

Every Arkansas student deserves the opportunity to graduate on a path toward prosperity.

Every student in Arkansas should graduate from high school success-ready with the knowledge, skills, abilities, and habits to succeed on their chosen path, with options including:

- **Enlistment** in military service,
- **Enrollment** in a postsecondary training or degree program, and

Starting with the ninth-grade class of 2024–2025, students can pursue flexible college and career readiness pathways that guide course selection and progress toward graduation. HEALTH SERVICES – SCHOOL NURSE

Walnut Ridge Elementary School has the services of a licensed school nurse. Any student who feels ill at school will be required to see the nurse for a determination to be made of appropriate action.

The school nurse is also required to see that all immunizations and health records are up to date and will conduct screenings of students for scoliosis, vision, hearing problems, and BMI. (Body Mass Index [BMI], which is height and weight, will be done by the school nurse as mandated by Act 1220.) Parents may request in writing for their child not to be screened.

MEDICAL ALERT

Parents must inform school officials and the school nurse of any medical conditions, which might require immediate and special medical attention. Examples would be severe allergies, diabetes, epilepsy, seizures, asthma, etc.

SCHOOL POLICY FOR DISPENSING MEDICATIONS

It is the policy of the Lawrence County Elementary School that no drug or medicinal preparation, except for medicines or medications approved for first-aid by the Arkansas School First-Aid

Guidelines, will be administered to a student on any school premises by school personnel unless the student requires the medications to attend school and unless a current, valid doctor's prescription and instructions, as well as a written request from the child's parents, are received by the school.

In the event the parent or guardian deems it necessary that a non-prescription medicine be given at school, said medicine should be brought to school in its original container with specific written instructions for administering. It will also be necessary that a medicine request form be completed by the parent. This policy should be adhered to for short-term illnesses such as cold, cough, toothache, flu-like symptoms, etc.

No non-prescription drug will be given on the school premises without the above guidelines being followed.

GUIDELINES FOR DISPENSING MEDICATIONS

- I. Requirements
 - A. Physicians or pharmacists should provide written orders and/or labels on prescription bottles, stating the name of the drug, the dosage and time to be given, and the recommended interval between doses.
 - B. A Medication Administration Release Form to be signed by parents should be used. This form should include: request for medication to be given, student's name, grade, medication and dosage, plus time to be given; what the medication is for; and emergency numbers in case child has a reaction to the medication.
 - C. All medication should be in the original container, with child's name on label. (Pharmacists should provide second container to send to school upon request.) Drugs should not be mixed in a container.
 - D. Prescriptions for long-term health problems should be updated at the beginning of each semester. The nurse should communicate with the physician regularly regarding students on long-term medications that would have an effect on the student's educational progress, such as medication for hyperactivity, epilepsy, etc.
 - E. Medication request forms will be in the school offices.
 - F. No non-prescription drugs will be given at school, as school personnel (excluding the licensed nurse) are not trained to determine when medications are needed and as this is a form of prescribing. The exception being if a parent/ guardian brings said non-prescription medicine in the original container to school with specific written directions for administering medicine.

- II. Security
 - A. Prescription medicine not requiring refrigeration will be stored in a locked container in the health office or elementary principal's office.
 - B. Medication requiring refrigeration will be stored in the refrigerator in the health office.
- III. Dispensing of Medications
 - A. The school nurse will administer all prescription medication.
 - B. Medicines will be dispensed in the health office or by the nurse. Asthmatic children will be allowed to use their inhalers according to physician's directions but will be monitored to prevent overuse. Any medicine (examples: antibiotics) prescribed to be given 3 times a day or less should not be sent to school but be scheduled to be given at home.
 - C. All medications administered by the school nurse will be recorded on the student medications form.
 - D. All medications received by the school nurse will be counted in the presence of the person bringing the medication.
 - E. Parent/guardian is required to deliver medication to the school nurse.
 - F. During field trips and extra-curricular activities, a parent must designate a person to give medication and document it on the student medication form.
 - G. If an error is made in administering a medication, the school nurse should (1) immediately notify the prescribing physician and follow his/her directions for possible antidote; (2) fill out the Medication Error Form (see attached form) and provide copies for the student's file, the principal, and parents; and (3) notify the parent.
 - H. If the medication error is made by a non-licensed person, the school nurse should be notified immediately. She/he will follow the procedure in Section G.
- IV. Emergency Medications
 - A. Under imminent threat or danger, certain good faith measures may be taken to lessen or remove the immediate threat to life, health, and safety. Emergency procedures for Arkansas School First-Aid Guidelines (1986) should be followed.
 - B. ACT 1694 (B) (i) – The parent or guardian of a student who needs to carry an asthma inhaler or auto-injectable epinephrine, or both, shall provide the school with written authorization for the student to carry an asthma inhaler or autoinjectable epinephrine, or both, on his or her person for use while in school, at an on-site school-sponsored activity, or at an off-site school-sponsored activity.
 - a. Evidence must show they have been prescribed by a health care practitioner with prescriptive privileges;
 - b. Evidence that the student needs to carry the asthma inhaler or auto-injectable epinephrine, or both, on his or her person due to a medical condition, and
 - c. a copy of an individualized health care plan for the student, prepared in accordance with 6-18-1005.
 - C. They shall be supplied by the student's parent or guardian and shall be stored and transported in its original prescription-labeled container.
 - D. A student is prohibited from sharing, transferring, or in any way diverting his or her own medication to any other person.
- V. Liability

A student should not be in possession of any drug, prescription or non-prescription, at any time. Some over-the counter medications might be considered as illegal drugs for adolescents. Students should not be in possession of any such items.

ACCIDENTS AND ILLNESSES AT SCHOOL

Illnesses or accidents on school grounds or in the buildings should be reported at once to the principal or school nurse so that first-aid treatment may be given. If the nature of the accident or illness appears to be serious, the family will be notified. The school will not assume financial responsibility for treatment. Students who are injured or become ill at school are to be taken home. In emergencies, they may be taken to the doctor or hospital and the family informed.

IMMUNIZATION POLICY

No child will be admitted to a public or private school of this state, irrespective of grade or transfer, who has not been immunized in accordance with the Arkansas Department of Health immunization schedule.

Responsibility for enforcement of requirements rests equally with each school district of this state and the parent or guardian of the student and each shall be separately and individually liable for permitting any violation of these acts.

COMMUNICABLE DISEASES AND PARASITES

Failure to comply with recommendation of school Health Officials toward the control of infectious disease: Suspended from school until the disease is controlled.

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: chicken pox, measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA, streptococcal and staphylococcal infections, ringworms, mononucleosis, Hepatitis B or C, mumps, vomiting, diarrhea, and fever (100.4 when taken orally). In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

MEAL CHARGE POLICY

I. Purpose

The goal of the Lawrence County School District is to provide student access to nutritious no- or low-cost meals each school day. However, unpaid charges place a large financial burden on our school. The purpose of this policy is to ensure compliance with federal requirements for the USDA Child Nutrition Program, and to provide oversight and accountability for the collection of outstanding student meal balances.

The intent of this policy is to establish procedures to address unpaid meal charges throughout the Lawrence County School District. The provisions of this policy pertain to regular priced school breakfast and lunch meals only. The Lawrence County School District provides this policy as a courtesy to those students in the event that they forget or lose their lunch money. Charging of items outside of the reimbursable meals (a la carte) items is prohibited.

II. Policy

- Free Meal Benefit - Free eligible students will be allowed to receive a free breakfast and lunch each day. A la carte purchases must be paid/prepaid.
- Reduced Meal Benefit - Reduced eligible students will be allowed to charge a maximum of \$ meals to their account after the balance reaches zero. The charge meals offered to students will be reimbursable meals that are available to all students.
- Full Pay Students - Students will pay for meals at the school's published paid meal rate each day. If a student is without meal money on a consistent basis, the administration will investigate the situation more closely and take further action as needed. If financial hardship exists, parents and families are encouraged to apply for free or reduced price lunches for their child if applicable. A student will be allowed to charge a maximum of \$100 meals to their account after the balance reaches zero. The charge meals offered to students will be reimbursable meals that are available to all students.
- Parents/Guardians are responsible for meal payment to the food service program. Discreet notices of low or deficit balances will be sent to parents/guardians at regular intervals during the school year.

- Students/Parents/Guardians may pay for meals in advance with cash sent in an envelope with the student's name or with a check payable to Walnut Ridge School. Further details are available on our webpage at bobcats.k12.ar.us. Funds should be maintained in accounts to minimize the possibility that a child may be without meal money on any given day. Any remaining funds for a particular student may/will be carried over to the next school year.
- Refunds for withdrawn, and graduating students; a written or e-mailed request for a refund of any money remaining in their account must be submitted. Students who are graduating at the end of the year will be given the option to transfer to a sibling's account with a written request.
- Unclaimed Funds must be requested within one school year. Unclaimed funds will then become the property of the Lawrence County school District Food Service Program.
- Balances Owed collection of owed balances will follow the policies and procedures set by the school.

STUDENT DISCIPLINE POLICIES AND REGULATIONS

The school is a community, and the rules and regulations of a school are the laws of the community. All those enjoying the rights of citizenship in the school must also accept the responsibilities of citizenship. A basic responsibility of those who enjoy the rights of citizenship is to respect the laws of the community.

The following activities are considered major infractions of proper conduct and will subject the student to disciplinary action, including, but not limited to, suspension or expulsion from school and/or notification of law enforcement officials. The violation of a rule will occur whether the conduct takes place on the SCHOOL GROUNDS AT ANY TIME, OFF THE SCHOOL GROUNDS AT A SCHOOL-SUPERVISED ACTIVITY, FUNCTION OR EVENT, OR ENROUTE TO AND FROM SCHOOL.

WHO IS RESPONSIBLE FOR STUDENT CONDUCT

Freedom is a constitutional right but does not mean the absence of reasonable rules and regulations which serve to guide the actions of individuals. Along with freedom comes the responsibility to act in such a manner to ensure all participants may enjoy the same freedom. To obtain the greatest possible benefit to the students, teachers, administrators, parents, Board of Education and the entire community, it is essential that all work together to ensure that all persons are treated equally and with dignity in respect to their rights and responsibilities.

STUDENTS

Students have the responsibility to pursue their education in the Lawrence County School District in a manner that shows respect for other students, faculty members, and other citizens. Students should be aware that they have a responsibility to cooperate with and assist the school staff by abiding the conduct rules and regulations established by the Board of Education. Each student is responsible for his/her own conduct at all times.

PARENTS OR GUARDIANS

Parents or guardians are responsible for exercising the required controls so that their children's behavior at school will be conducive to their own progress and not disruptive to the school's educational program. They are responsible for contacting school personnel when they have reason to believe that their children are experiencing difficulties at school or at home and that, by actively soliciting the help of the school, behavior standards may be maintained.

TEACHERS

All teachers are responsible for the supervision of the behavior of all the students in the school. This includes not only the students who are regularly assigned to the teacher but the other students with whom the teacher comes in contact. Each teacher is expected to maintain the kind of atmosphere and decorum which will promote the learning process and to utilize sound techniques which seem appropriate. These techniques include conferences with students and parents, referral to counselors at the school, or referral to the nurse or other services. When the teacher is unable to assist the student to maintain proper controls of his/her behavior, the student is to be referred to the appropriate administrator in the school.

PRINCIPAL

The principal of each school is expected to disseminate the rules and regulations currently in effect for that school to all students at the beginning of the school year and to each new student upon registration. In developing rules and regulations, the principal is expected to involve representatives of the teaching staff, the student body, and patrons of the school. The principal of each school is responsible for conducting continued in-service education for all personnel on a regular basis to interpret and implement established policies. The principal is expected to inform the parents or guardians to any student whose behavior is in serious conflict with established laws, rules, and procedures.

SUPERINTENDENT

The superintendent is responsible for exercising leadership in establishing all necessary procedures, rules, and regulations to make effective the board of education policies relating to standards of student behavior.

STUDENT CONDUCT AND DISCIPLINE

At all times, students are expected to behave in a proper and satisfactory manner. Teachers and other school personnel have the authority to give reasonable instructions to any student.

Depending on the severity and/or frequency of the misconduct, the discipline consequences may range from a minimum of verbal warning to a maximum of expulsion. However, at the discretion of the principal other consequences may occur between minimum and maximum as listed below:

1. Verbal warning
2. Conference with the student/Counseling
3. Loss of privileges/Corrective actions
4. Written or oral communication/conference with parents
5. Detention
6. Corporal punishment
7. Saturday School
8. Suspension (both in-school and out-of-school)
9. Expulsion

DISCIPLINE

The hallmark of the exercise of disciplinary authority shall be fairness.

Teachers and other school personnel have the authority to give reasonable instructions to any student who is under school jurisdiction and are responsible for reporting to the principal violations of school regulations not resolved by the teacher.

A teacher shall send the student to the office of the principal and shall file with the principal a written statement of the reasons for the student's suspension from class. The principal shall determine whether to reinstate the student in class, reassign him, or take other disciplinary actions.

RESPONSIBILITY OF ADMINISTRATORS TO REPORT CERTAIN VIOLATIONS

Acts 888 of 1997 and 1243 of 1997 require that school officials report to local law enforcement agencies the occurrence of a felony or crime of violence that happens on school property or during a school-supervised activity. This could include, but is not restricted to, fighting, theft, possession of weapons, possession, use or selling of alcoholic beverages or controlled substance prohibited by Federal, State or local laws.

Other acts which may be reported include criminal mischief, vandalism, theft, tampering with fire alarms or fire extinguishers, and any other acts which may be in violation of local or state laws or which could lead to such violations.

In accordance with Act 1415-(b)(1), the principal or principal's designee shall make a reasonable, good faith effort to notify the student's parent, legal guardian, or other person having lawful control of the student by court order or person acting in loco parentis listed on student enrollment forms of the occurrence of: (1) A report to any law enforcement agency concerning student misconduct; (2) Grants law enforcement personnel access to a student; or (3) – Knows that the student has been taken into custody by law enforcement personnel during the school day or while under school supervision.

Notification is not required if school personnel make a report or file a complaint based on suspected child maltreatment as required under 12-12-507 or if a law enforcement officer or Department of Human Services investigator or personnel member interviews a student during the course of an investigation of suspected child maltreatment.

STANDARDS OF CONDUCT

All students are expected to conduct themselves at all times in a manner that will contribute to the best interest of the school and not infringe on the rights of others. School staff has the authority and the responsibility to take customary and reasonable measures to maintain proper control and discipline among students placed under their case and supervision. Such measures may include the use of reasonable force in the exercise of lawful authority to restrain or correct students and maintain order.

GENERAL CONDUCT

Students should follow the guidelines listed below:

- Avoid loud noises, gathering in groups, running or pushing in the halls or corridors.
- Refrain from marking, cutting or otherwise defacing the buildings or its furniture.
- Respect the rights of others whether in a classroom, the halls, or at any other place on campus.
- Avoid talking or any other form of disturbance while assemblies are in progress. Whistling and yelling are not proper forms of applause. Students are expected to give courteous attention to visiting speakers and to student performers at all assemblies.
- Each student should try to exercise common sense judgment, thus avoiding bad conduct.

A student may be suspended or expelled for immorality, refractory conduct, insubordination, infectious disease, habitual uncleanliness, or other conduct that would tend to impair the discipline of the school or harm the other students, regardless of whether the student's conduct occurs on or off campus and during or between school terms and regardless of whether a specific prohibition of the conduct is contained in this student handbook. (Insubordination is defined as a defiance of authority.)

OFF-CAMPUS EVENTS

Students at school sponsored, off-campus events shall be governed by school district rules and regulations and are subject to the authority of district personnel. Failure to obey the rules and regulations and/or failure to obey reasonable instructions of school district personnel shall result in loss of eligibility to attend school sponsored, off-campus events and may result in disciplinary action applicable under the regular school program.

CLASSROOM DISCIPLINE

The faculty of the Lawrence County School District has established a set of basic classroom rules. Faculty members will review these rules with the students at the beginning of the school year and periodically during the year as needed. Faculty members have the right to establish and enforce other rules for discipline in their classrooms as long as these rules are reasonable and necessary to maintain the proper environment for learning.

STUDENT DISCIPLINE DUE PROCESS

Every student is entitled to due process in every instance of disciplinary action for which the student may be subject to penalties of suspension. (See Ark. Stat. Ann. 80-1516.) Due process is afforded to students in disciplinary cases of some magnitude, such as:

- suspension
- expulsion
- statements removed from student's record
- clearing one's reputation

Prior to any suspension, the school principal or his/her designee shall advise the pupil in question of the particular misconduct of which he or she is accused as well as the basis for such accusation.

The pupil shall be given an opportunity at that time to explain his/her version of the facts to the school principal or his/her designee.

If a student is suspended, parents/legal guardians will be notified immediately. Parents will be notified by mail (regular and certified) regarding their entitlement to a hearing. Requests must be made within 3 days of receipt of the letter.

PERSONAL SEARCH

A search of a student's person should be limited to a situation in which the administration has reasonable suspicion that the search would produce evidence indicating the student has violated the law or school rules.

Dangerous items (such as firearms, knives, and other weapons), controlled substances, and other items which may be used to substantially disrupt the education process will be removed from the student's possession and will be reported to the proper authorities. Parents will be notified. Students should be asked for their consent prior to a search. A search warrant should be obtained, unless there is probable cause to believe that a dangerous weapon or illegal drugs are being concealed. An adult witness will be present when a personal search is conducted.

A pat-down search of a student's person should be done by a school official of the same sex.

A search must be based on a reasonable suspicion that the student has violated the law or school rules, and the scope of the search must be reasonably related to the objective of the search and not excessively intrusive in light of the age and sex of the student and nature of the infraction.

SEARCH AND SEIZURE

School personnel may legally search lockers, backpacks, vehicles, and students. A search may be conducted upon receipt of information that the search would produce evidence indicating the student has violated the law or school rules.

CORPORAL PUNISHMENT

Reasonable corporal punishment is permitted by the legal system and by school policy. Before corporal punishment is administered, the student will be advised of the rule and infraction for which the student is being punished. The student will be allowed time to respond before the punishment is administered. Corporal punishment will not be administered in the presence of other students, with malice or anger, or in excess. It will be administered by an administrator and witnessed by a licensed staff member. Refusal of corporal punishment may result in suspension or other disciplinary measures.

Parents may request that a student not be subject to corporal punishment. Such a request should be made in writing and delivered to the school administrator by the second week of school. (Ark. Code Ann. 6-18-503 (Repl. 1993) as amended by Act 33 of 1995)

ADMINISTRATIVE RESPONSE SUSPENSION AND EXPULSION

State laws allow local school officials to suspend or expel students who are unwilling to behave in an acceptable manner and fail to follow school rules. Due process must be provided.

The principal of any school or designee is authorized to suspend students from school for disciplinary reasons up to 10 school days, including the day upon which the suspension was initially imposed. Prior to such suspension, the principal or designee shall inform the student and parent of the misconduct or infraction of which he/she is accused as well as the basis of the accusation. The student shall be given an opportunity to explain his/her version of the facts to the school official or his/her designee. When the principal considers that a suspension is proper, he/she shall notify the parent, guardian, or caretaker and send the student home with a suspension notice requesting a student-parent-principal conference within 24 hours, if possible.

Additionally, the parent will be mailed a copy of the suspension, its duration, the manner in which the student may be readmitted to school and the procedure for review of the suspension. Days missed due to out of school suspension or expulsion shall be unexcused absences.

A suspended student will be readmitted to school after being suspended for 10 school days, including the day upon which the suspension was initially imposed, even if the appeal process has not been completed. A suspension that does not amount to an expulsion for the remainder of the semester, but is more than 10 days, shall come only after the student has been afforded notice, and opportunity for a hearing, the same procedural rights as for expulsion.

SUSPENSION (ACT 159)

Parent(s) or legal guardian will be notified immediately when a student has been suspended. Parents are to provide a primary call number or e-mail address if they do not have a telephone, or a current mailing address if they do not have an email address or a primary call number.

EXPULSION PROCEDURE

The principal may recommend students be expelled with the loss of credit for the current semester or for one year where the infraction involves a weapon. Expulsion should be used rarely and in those instances in which serious bodily harm occurred or could have occurred to another person or when the student possesses drugs or weapons.

Lawrence County School District shall offer any expelled student the opportunity to receive credit through digital learning that is at least equal to the credit had the student remained enrolled.

ANTI-BULLYING POLICY

The Walnut Ridge Elementary School is committed to providing a safe learning environment for each of its students. Student achievement is best attained in an atmosphere that is free from the fear of emotional and physical intimidations and threats. Bullying is a destructive behavior that will erode the foundational principles on which a school is built. This school will not tolerate any behavior that is classified under the definition of bullying and will take steps needed to eliminate such behavior.

Bullying is defined as any written or verbal expression of physical act or gesture, or a pattern thereof, that is intended to cause distress or fear upon one or more students. A student will be found violating this policy if his/her conduct has been found to have the effect of humiliation or embarrassment on a student, and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

A copy of the Lawrence County School District Bullying Policy is available upon request.

POLICIES FOR SCHOOL INTERNET USE

The Internet has become an effective educational tool. A school policy has been implemented to assure proper use. A copy of policy rules and regulations regarding Internet use at school is included in the Student Handbook. A copy of the Internet consent form, signed by both parent/guardian and the student must be on file before the student will be allowed to utilize the Internet.

POLICE DRUG DOG

The Lawrence County School Administration has access to a drug dog. It is a gentle dog used for the purpose of sniffing out drugs. The dog may be used at school from time to time when deemed appropriate by the administration. Students found in possession or whose property contains illegal drugs are subject to discipline policies of the school, as well as the local, state and federal authorities. "Sniffing" by trained dogs in public hallways or autos in public lots is not a search. (The fourth amendment requirements do apply.)

DISTRIBUTION OF LITERATURE

Students shall have the right to distribute and possess literature including, but not limited to, newspapers, magazines, leaflets and pamphlets, except that the district may prohibit specific issues of a specific publication if there is substantial, factual basis to believe its possession or distribution will cause, or is causing, substantial disruption of school activities. The time, place, and the manner of student distribution of literature may be reasonably regulated by the district provided such regulations:

1. Are uniformly applied to all forms of literature.
2. Allow distribution at times and places where no interference with school activities will occur.
3. Are specific as to places where and time where distribution is prohibited.
4. Do not inhibit a person's right to accept or reject any literature distributed in accordance with the rules.

All petitions shall be free of obscenities, libelous statements, and personal attack and shall be within the bounds of reasonable conduct. Petitions must be submitted to and approved by the principal before circulation. Noncompliance with the stated policy will result in disciplinary action. Students signing such petitions shall be free from recrimination or retribution from members of the staff and administration.

Minimum – oral reprimand

Maximum – suspension and/or expulsion

DISCIPLINE FOR STUDENTS WITH A DISABILITY

Students with a disability who engage in misbehavior are subject to normal school disciplinary rules and procedures so long as such treatment does not abridge the right to free appropriate public education.

The individual education plan (IEP) team for the student would consider whether particular discipline procedures should be adopted for that student and included in his/her IEP.

Students with a disability may be excluded from school only in emergencies and only for the duration of the emergency. In no case should the student be excluded for more than 10 days in a school year.

After an emergency suspension is imposed on a handicapped student, an immediate meeting of the student's IEP team should be held to determine the cause and effect of the suspension with a view toward assessing the effectiveness and appropriateness of the student's placement and toward minimizing the harm resulting from exclusion. The suspended student should be offered alternative education programming for the duration of exclusion.

STUDENT BEHAVIORS AND DISCIPLINARY ACTIONS

The school district reserves the right to punish behavior which is not conducive to good order and discipline in the school, even though such behavior is not specified in the following written rules.

The Principal may alter the severity of the punishment based on circumstances, severity of the infraction, and other conditions.

A student will not cheat or aid others in cheating on school work, complete assignments for others, sign or write notes falsifying information or signatures, complete disciplinary assignments for others, have others do any of the above for them, or an inappropriate use of Artificial Intelligence (AI).

Should such actions occur, students will be disciplined.

The Lawrence County School District is committed to eradication of bullying in the school, on school property, in school vehicles, on school buses, at designated school bus stops, at school- sponsored activities, or at school-sanctioned events.

Bullying is defined as any repeated behavior that teases, frightens or hurts another person. Bullying conduct includes, but is not limited to, any written, verbal or physical act that harasses and causes distress, anxiety or harm. Bullying also includes unacceptable behavior identified in this policy which is electronically transmitted. School employees, volunteers, and students are encouraged to report any instances of bullying without fear of consequences and will not be subject to retaliation or reprisal in any form. Any report will take into account the age of the offending student, the level of seriousness of the behavior, and whether or not the offending student has developed a habit of engaging in bullying behavior.

If a student feels that he/she is being bullied, the following steps should be taken without fear of retaliation:

1. Inform a teacher, counselor, or administrator.
2. Write a detailed account of the incident, including the date, time, place and witnesses if any.
3. If a teacher or school employee witnesses or has reliable information that a pupil has been a victim of bullying, as defined by the district, he/she should notify the principal immediately. After completing an investigation of the reported incident, a student who has been found guilty of participating in bullying behavior will be subject to disciplinary action that is appropriate to the degree of seriousness of the bullying behavior, which may include:

If it is determined by the principal or building level administrator, that a student has been a victim of bullying, the school shall provide the parents notification within five (5) days of the incident. The principal or designee will provide the parents of the victim details of the incident(s) and what measures may be taken. The administrator may recommend the incident to the school counselor if needed. Please note, to protect the rights of minor students, the school shall not report to the victim or parents of the victim any disciplinary measures taken upon the students(s) found to be guilty of bullying.

Making threats or provocative remarks or slurs to another student will not be permitted. A student has the right to defend himself in clear cases where the student is the target of a physical attack which he did not provoke and doesn't have an opportunity to avoid. SCHOOL BUS STUDENT EXPECTATIONS & PROHIBITED BEHAVIORS

Riding the bus is a privilege. Students and parents should appreciate this service. It is imperative that the parents and students strive to see that all students obey the rules of the school and the bus driver.

The purpose of this policy is to ensure the safety and well-being of all students and staff during school transportation. Riding the school bus is a privilege, not a right. Students are expected to demonstrate respectful, safe, and responsible behavior at all times while riding or waiting for the bus. It would be helpful if the parents would notify the bus driver if their children will not be riding the bus, especially if they live where a bus must travel several miles to pick them up or if it is necessary to make a turnaround. This would also be helpful in the case of bad weather.

State transportation regulations must be observed at all times. In addition, because of dangers or inconveniences involved, the following local regulations are in effect:

1. **Obey the bus driver at all times;** the driver is the authority on the bus. Do not ask the bus driver to let you off.
2. **Be at the designated stop on time;** buses will not wait for late students. Board and exit the bus in an orderly manner. Upon getting off the bus, walk in front of it 10 to 15 feet and wait for the bus driver to motion you across. If students must cross the road or highway to enter the bus, try to be on the right side of the road waiting for the bus. If they should arrive at the stop just as the bus approaches, they should wait until the bus comes to a complete stop and wait until the driver signals them to come across to the bus. Students who must cross the road after leaving the bus in the afternoon, must go to a point on the shoulder of the road ten feet in front of the bus. Cross the road only after the driver has signaled for them to do so.
3. **Remain seated and facing forward while the bus is moving.** Students are expected to conduct themselves in a manner so as not to distract the driver or disturb other riders. This includes keeping their hands to themselves, leaving others alone, and staying reasonably quiet.
4. **Possession or use of tobacco, drugs, alcohol, or weapons is strictly prohibited.**
5. **Treat others with respect:** Students should not be fighting, pushing, or doing any type of physical aggression while on the bus. Students must remain seated while the bus is in motion. Students are not to put their hands, arms, heads, or bodies out of the window. Do not yell at anyone outside the bus. Bullying or harassment of any kind is prohibited.
6. **Treat property with respect:** No vandalism or littering. Students are not to tamper with any of the safety devices such as door latches, fire extinguishers, etc. Students are not to deface the bus or any school property. Do not write on the bus or damage the seats, etc. Do not throw paper, food, or other objects on the floor of the bus. Do not eat on the bus. Keep the aisle of the bus clear from books, lunches, coats, etc. Do not put feet in the aisle.

7. **Use of profane, abusive, or inappropriate language or gestures:** Act 814 makes it unlawful for students or adults to threaten, curse, or use abusive language to a school employee.
8. **Students cannot ride any bus except their own.** Visitors are not allowed unless permission must be secured from the Supervisor of Transportation or in the case of an emergency.
9. **This is not intended to cover all of the “do’s” and “don’ts” but is a very specific guide.** The driver may find it necessary to interpret these policies in light of his or her own bus needs.

Consequences for Misconduct:

Bus misconduct will be handled in accordance with the school’s discipline code. Consequences may include, but are not limited to the following:

Offense & Consequences:

- 1st Offense – Verbal warning

- 4th Offense or any offense after – Extended suspension (5-10 days) or loss of bus privileges

Severe Misconduct could result in immediate removal from the bus and potential long-term suspension or expulsion from transportation services.

Parent/Guardian Responsibilities:

- Ensure students understand and follow the bus rules.
- Provide alternate transportation if a student is suspended from bus service.

The safety of all students is our top priority. We appreciate the cooperation of students, families, and staff in maintaining respectful and safe bus behavior.

School events may require off-campus and/or out-of-town transportation. All trips must have approved adult supervisors or sponsors who will secure the use of school transportation to and from the event. ACCEPTABLE USE AND INTERNET SAFETY POLICY FOR THE COMPUTER NETWORK OF THE LAWRENCE COUNTY SCHOOL DISTRICT

The Lawrence County School District is pleased to make available to users access to interconnected computer systems within the District and to the Internet, the world-wide network that provides various means of accessing significant educational materials and opportunities.

In order for the School District to be able to continue to make its computer network and Internet access available, all users must take responsibility for appropriate and lawful use of this access. Users must understand that one person's misuse of the network and Internet access may jeopardize the ability of all users to enjoy such access.

Below is the Acceptable Use and Internet Safety Policy ("Policy") of the School District and the Data Acquisition Site that provides Internet access to the School District. Upon reviewing, signing, and returning this Policy as the users have been directed, each student or staff member will be given the opportunity to enjoy Internet access at School and is agreeing to follow the Policy. If a student is under 18 years of age, he or she must have his or her parents or guardians read and sign the Policy. The School District cannot provide access to any student who, if 18 or older, fails to sign and submit the Policy to the School as directed or, if under 18, does not return the Policy as directed with the signatures of the student and his/her parents or guardians.

Listed below are the provisions of your agreement regarding computer network and Internet use. If you have any questions about these provisions, you should contact the person that your School has designated as the one to whom you can direct your questions. If any user violates this Policy, the student's or staff members access will be denied, if not already provided, or withdrawn and he or she may be subject to additional disciplinary action.

I. PERSONAL RESPONSIBILITY

By signing this Policy, you are agreeing not only to follow the rules in this Policy, but are agreeing to report any misuse of the network to the person designated by the School for such reporting. Misuse means any violations of this Policy or any other use that is not included in the Policy, but has the effect of harming another or his or her property.

II. TERM OF THE PERMITTED USE

A student or staff member who submits to the School, as directed, a properly signed Use Agreement and follows the Policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Users will be asked to sign a new Policy each year during which they are students or staff members in the School District before they are given an access account.

III. ACCEPTABLE USES

A. Educational Purposes Only. The School District is providing access to its computer networks and the Internet for only educational purposes. If you have any doubt about whether a contemplated activity is educational, you may consult with the person(s) designated by the School to help you decide if a use is appropriate.

B. Unacceptable Uses of Network. Among the uses that are considered unacceptable and which constitute a violation of this Policy are the following:

1. Uses that violate the law or encourage others to violate the law. Don't transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is

prohibited by the School District's Student Discipline Policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, you should assume that all materials are protected unless there is explicit permission on the materials to use them.

2. Uses that cause harm to others or damage to their property. For example, don't engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than you is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "trojan horse," "time bomb" or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.
3. Uses that jeopardize the security of student access and of the computer network or other networks on the Internet. For example, don't disclose or share your password with others; don't impersonate another user.
4. Using the network for financial or commercial gain without district permission. (Although not prohibited, you should not give others private information about you, including credit card numbers and social security numbers). School related purchases can be done with approval of the administration.
5. Uses that result in computer software being installed without permission. No user is permitted to install software without the consent of the Technology Coordinator. This consent will require proof of district ownership of the software. Software provided by the district through specialized district-provided installation menus are permitted to be installed by the user provided they have a right to use the software. Users are not permitted to reconfigure school-owned computers without prior permission from the Technology Coordinator unless such reconfiguration is available through specialized district-provided menu choices such as printer location selections.
6. Giving your password, or anyone else's password to anyone or allowing others to use your password. Under normal circumstances no one has access to your password, not even the administrator. If you forget your password it can be reset to the default password that is given out for new accounts and then changed to the password of your choosing, so long as it meets the password complexity requirements.
7. Defeating or attempting to defeat any software program or hardware device used to monitor, secure, filter or control a computer is a violation of this Use Agreement.
8. Using a proxy, circumventor, or any software, procedure, or activity to bypass internet filtering. Running UltraSurf or other similar programs will result in loss of your network account.
9. Wasteful use of limited resources provided by the school including paper.
10. Personal use of computers during instructional time

C. Netiquette. All users must abide by rules of network etiquette, which include the following:

1. Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.
2. Avoid language and uses which may be offensive to other users. Don't use access to make, distribute, or redistribute jokes, stories, or other material which is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.

3. Don't assume that a sender of e-mail is giving his or her permission for you to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should only be done with permission or when you know that the individual would have no objection.
 4. Be considerate when sending attachments with e-mail (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format which the recipient can open.
- D. Prohibited.** Under no circumstances will any wireless access points be connected to the network without permission from the technology coordinator. This is by far the biggest threat to the internal network and will be strictly enforced with no tolerance.

IV. INTERNET SAFETY

- A. General Warning; Individual Responsibility of Parents and Users.** All users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged pupils. Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guide to materials to shun. If a student finds that other users are visiting offensive or harmful sites, he or she should report such use to the person designated by the School.
- B. Personal Safety.** Be safe. In using the computer network and Internet, do not reveal personal information such as your home address or telephone number. Do not use your real last name or any other information which might allow a person to locate you without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone you "meet" on the computer network or Internet without your parent's permission (if you are under 18). Regardless of your age, you should never agree to meet a person you have only communicated with on the Internet in a secluded place or in a private setting.
- C. "Hacking" and Other Illegal Activities.** It is a violation of this Policy to use the School's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.
- D. Confidentiality of Student Information.** Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student himself/herself. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by Arkansas law, for internal administrative purposes or approved educational projects and activities.

Personally identifiable information (PII) on mobile devices is at risk. Due to this risk, any mobile device that syncs with the district email server needs to be cleared of any PII that would put the district in jeopardy of legal action in the case of being lost or stolen. This process wipes the device back to factory settings.

- E. Active Restriction Measures.** The School, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) child pornography, or (3) harmful to minors. The School will also monitor the online activities of users, through direct

observation and/or technological means, to ensure that users are not accessing such depictions or any other material which is inappropriate for minors. Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 17 and older. The term "harmful to minors" is defined by the Communications Act of 1934 (47 USC Section 254 [h][7]), as meaning any picture, image, graphic image file, or other visual depiction that:

- taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

V. PRIVACY

Network and Internet access is provided as a tool for your education. The School District reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the School District and no user shall have any expectation of privacy regarding such materials.

VI. FAILURE TO FOLLOW POLICY

The user's use of the computer network and Internet is a privilege, not a right. A user who violates this Policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the School District may refuse to reinstate for the remainder of the student's enrollment in the School District. A user violates this Policy by his or her own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this Policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The School District may also take other disciplinary action in such circumstances.

VII. WARRANTIES / INDEMNIFICATION

The School District makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this Policy. It shall not be responsible for any claims, losses, damages or costs (including attorney's fees) of any kind suffered, directly or indirectly, by any user or his or her parent(s) or guardian(s) arising out of the user's use of its computer networks or the Internet under this Policy. By signing this Policy, users are taking full responsibility for his or her use, and the user who is 18 or older or, in the case of a user under 18, the parent(s) or guardian(s) are agreeing to indemnify and hold the School, the School District, the Data Acquisition Site that provides the computer and Internet access opportunity to the School District and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or, if the user is a minor, the user's parent(s) or guardian(s) agree to cooperate with the School in the event of the School's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a School computer or on another computer outside the School District's network.

VIII. UPDATES

Users, and if appropriate, the user's parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new Policy, for example, to reflect developments in the law or technology. Such information must be provided by the user (or his/her parents or guardian) or such new Policy must be signed if the user wishes to continue to receive

service. If after you have provided your account information, some or all of the information changes, you must notify the person designated by the School to receive such information.

IX. LIABILITY FOR DEBTS

Staff shall be liable for any and all costs (debts) incurred through their use of the District's computers or the Internet including penalties for copyright violations.

X. LOGGING IN FOR THE FIRST TIME

After your account is setup, you will log in with your username and the initial password which you will be forced to change at the first login. Your username is in the format of firstname.lastname. Your initial password is NewuserXXXX with the XXXX replaced with the ending calendar year of the school year. For example, for the 2029-2030 school year, your password will be Newuser2030. Your new and subsequent passwords must adhere to the following rules:

- A mixture of uppercase, lowercase, numbers, and punctuation.
- Cannot include your name
- Must be at least 8 characters long
- Cannot be any of your last five passwords.

XI. DATA SECURITY AND PERSONAL DATA RESPONSIBILITIES

There are federal laws protecting certain types of information especially "personally identifiable information". It is your responsibility to safeguard this information that is in your possession.

Personal files or files on the local machine are not backed up. This includes files on a take home laptop or other device with storage. Pictures, music, documents, etc. will be lost when the device is upgraded or maintenance is performed and it is the users' responsibility to ensure that backups, if desired, exist before the upgrade or maintenance.

Cellphones that are setup to sync email with the email server contains PII and a mandatory policy is in effect to enforce password protected access to any device being sync'd. This is not an extremely strong security measure. It is designed to give you time to remotely clean your device in case it is lost or stolen, at which point you are responsible. The remote clean is very easy to do and it is your responsibility to do or get assistance doing the remote clean before PII is compromised.

OTHER POLICIES

NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access.

Parents or eligible students should submit to the School principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate.

Parents or eligible students may ask the School to amend a record that they believe is inaccurate. They should write the School principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.)

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

TITLE IX

In June 1972, Congress passed Title IX of the Education Amendments, a law which affects virtually every educational institution in the country. The law prohibits discrimination by sex, in educational programs that receive federal funds.

The law states in part that “no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal assistance.”

EQUITY

In compliance with federal nondiscrimination laws, the Lawrence County School District will provide equal opportunities without regard to race, color national origin, gender, age, disability, or to veterans in its educational programs and activities. This includes, but is not limited to, admission, educational services, financial aid, and employment.

OFFICE OF CIVIL RIGHTS (OCR) GRIEVANCE PROCEDURE

1. The complainant should initiate the grievance procedure by submitting in writing the nature of the grievance to the coordinator for Title VI, Title IX, or Section 504.
Coordinator: Amy Privett (870)886-3482
2. In the event the complainant feels that the coordinator has not satisfactorily resolved the grievance, the complainant may appeal his decision or action to the superintendent of the school district.
3. If the complainant feels that the discrimination still remains after having appealed to the superintendent, a further appeal may be made to the board of directors.
4. After utilizing the above procedure, the complainant may appeal to the Office of Civil Rights (OCR) if the procedure previously listed has not relieved the complainant of any and all discriminatory acts based on race, color, national origin, sex, or handicap. The current address of the OCR may be obtained from the coordinator.
5. The OCR recommends that complainants use the outlined procedure to make known their grievance. The complainant may, however, appeal directly to the OCR. Generally, the complaint should be made to OCR in writing within 180 days of the date of the alleged discrimination.

PARENTAL CONCERNS (ACT 307)

The procedure which follows should be used by any person who has a parental concern:

1. The concern must be directed to the person who originally took the action upon which the concern is based. The person shall reconsider his/her action and give his/her decision to the concern.
2. If the person is not satisfied with the decision, the concern must be directed to the principal. The principal shall review the original action which was taken and render a decision or suggest a solution which might be mutually satisfactory to all parties. If either party is not satisfied with the decision of the principal, the concern may be directed to the assistant superintendent or superintendent.
3. The assistant superintendent or superintendent shall review the concern and shall issue a decision. Any further appeal must be made to the Board of Education through regular procedures for appearing before the board.

NOTICE

Some of the buildings in each of the county school districts contain asbestos, however it is non- friable and each district has a Management Plan to safely control the asbestos. This plan can be reviewed at the Administrative Office of each school during normal school hours. The schools included in this notice are Hoxie, Hillcrest, Sloan-Hendrix, and Walnut Ridge.

ANTISEMITISM PROHIBITED (Arkansas Act 721)

Arkansas law now requires public schools to take strong steps to prevent and respond to antisemitic behavior, just as we do with all forms of discrimination. This law uses the International Holocaust Remembrance Alliance (IHRA) definition of antisemitism, which helps schools clearly identify antisemitic speech or actions. Families should know that freedom of speech is still protected. Criticizing a country, including Israel, is not considered antisemitism unless it crosses into hate or bias against Jewish individuals.

STUDENT USE OF ARTIFICIAL INTELLIGENCE (Arkansas Act 848)

“Artificial Intelligence (AI) Tools” means Software applications or platforms that utilize machine learning algorithms to perform tasks typically requiring human intelligence, such as generating content, providing recommendations, or solving problems. For purposes of this policy, AI tools does not include the use of spell check or grammar check.

The purpose of this policy is to establish guidelines for the responsible use of AI tools by District students. The policy applies to all students enrolled in the District and covers the use of AI tools when completing District assignments or projects.

The district shall provide teachers and students resources and education on AI literacy and digital citizenship. The District shall establish a committee who shall be responsible for the review and selection of AI tools that shall be available for students to use. All AI tools selected by the committee shall comply with applicable state and federal data privacy laws. Students shall only use AI tools that were approved by the District committee for classroom assignments or projects.

Teachers are responsible for providing instructions on when and how AI tools may be used for classroom assignments. Students may use AI tools as approved by their classroom teacher to enhance learning and develop future-ready skills.

Students should use AI tools ethically and responsibly, aligning with the district's educational objectives, and in a manner that does not harm themselves or others. As part of using AI tools responsibly, students should be cautious about the information they provide to AI tools and consult with a teacher if unsure. At no time shall Students share personal, sensitive, or confidential information with AI tools, especially AI tools requiring data input.

When a student uses AI tools, a student shall:

1. Review and verify the accuracy of content that is generated by an AI tool;
2. Cite AI tools used as part of an assignment or project as a source, following District citation guidelines; and
3. Be transparent about their use of AI in completing assignments.

Students must ensure all submitted work is their own and properly acknowledge or cite any assistance from AI tools. Students are encouraged to ask questions if they are unsure about the acceptable use of AI tools.

The following actions regarding AI tools are strictly prohibited:

- Misuse of AI tools for cheating, plagiarism, or any form of academic dishonesty, including the submission of assignments that were fully generated by an AI tool and presented as original student work;
- Altering or falsifying academic documents or records using AI tools;
- Using AI tools to:
 - Gain unauthorized access to District systems; or
 - Bypass District security measures;
- Using AI tools to produce misleading or false information, imagery, or any form of false outputs about themselves, other students, or staff members.

Students should report any inappropriate content or security concerns encountered while using AI tools to a teacher or administrator.

Violations of this policy shall be handled in accordance with the District's disciplinary procedures.
